Additional notes		*As you would expect, Drama explores many themes and issues which may be challenging or difficult, for example, drink driving in Poetry. Where a student does not feel comfortable, they should make themselves known to their drama teacher who can provide alternative arrangements where necessary.	NB: Each scheme lasts approximately 10 weeks.	Students will rotate around these 3 areas over the course of the year.	The topics studied during Games and PE curriculum time are subject to variation, e.g. due to adverse weather conditions, so may be changed on short notice.						The topics studied during Games and PE curriculum time are subject to variation, e.g. due to adverse weather conditions, so may be changed on short notice.	In RE, students will explore both world and current issues. For example, when studying Judaism, we also briefly cover the Holocaust. We do this in an age appropriate and sensitive way. If you have any questions about any of the topics taught, please contact our RE department via Ecclesfield Enquiries.	At times, topics may be staggered to alleviate pressure around provision of apparatus for practical science lessons.
