

C - B Limited knowledge explained but drawn badly, not using/understanding keywords and names of techniques or equipment.

B - A Good Knowledge explained minimally with good 3D drawing capabilities using /understanding key words and names of techniques or equipment.

A - A* Excellent Knowledge explained full using 'full English' with Rendered (coloured in) 3D drawings , explaining and using key words and names of techniques and equipment.

Technical Language and terms

It is important to use the correct terminology for equipment and process.

Name _____

Draw your two design ideas here in pencil - they do not need to be in colour but they do need to be annotated - they are worth 6 marks each.

A large, empty rectangular box with a black border, intended for drawing a design idea.

Design A

A large, empty rectangular box with a black border, intended for drawing a design idea.

Design B

Remember ~ A time guide is one mark = one minute.

Final Design

Choose **ONE** of your design ideas for **development**.

Is it Design A or Design B ?

Use sketches, labelling and notes to present a final design in colour for your textile product. You must show a back and front view

Marks will be given for the following:

- Use of the India theme (4)
- Use of range of fabrics & components (3)
- Decorative techniques used (5)
- Creativity & quality of the design (4)
- Effective use of colour in the design (2)
- Presentation of the final idea (2)

Total marks = 20marks

Print A3

- **Processes.**
- Using Notes and diagrams explain how to complete one of the processes in your design.
- Remember to list all the equipment and resources that you would need to use.
- Applique / Printing / Batik are good decorative techniques to explain.
- Make sure you specify techniques in your design that you are confident to explain.
- Drawings are a good way to help lay out the process - don't forget that you also need the notes.
- **If you do CAD/CAM Embroidery don't forget the embroidery hoop, stitch and tear backing paper, software programme.**

- Name of technique =
- Equipment and resources =
