Dear Parent or Carer,

Y11 TRANSITION TO A LEVEL COURSES FROM CHAPELTOWN ACADEMY

I hope this letter finds you and your families well. I am writing to inform you of support and activities that are available to all Y11 students looking to progress to A level courses in the next academic year.

As a school, we collaborate closely with Chapeltown Academy which is a local post-16, A level provider. The academy has an excellent academic record and many of our Y11 students will have already spent a little time there on enrichment and support days. It is very pleasing to see that record numbers of Y11 students are selecting Chapeltown Academy for post-16 studies this year and I hope we can continue to build this partnership moving forward.

On their website, Chapeltown Academy had provided a series of induction and transition activities to a wide range of A Level courses: <https://www.chapeltownacademy.com/index.php/curriculum/year-11-transition-work>

The materials are designed by Chapeltown Academy staff as transition activities to A Level courses and so now, with the current lockdown, it would be an ideal opportunity for students to try them out. They can be used by anyone, not just those moving onto Chapeltown Academy.

Also, CGP are providing **free** downloads of their revision guides to A level mathematics and sciences:

These are invaluable resources for Y11 students moving onto sciences or maths next year and I would urge you download them. If you would like to know more about Chapeltown Academy then you can still contact them through the details on their website: <https://www.chapeltownacademy.com/index.php/contact-us>

Ecclesfield teachers have also offered to provide a limited number of on-line A Level taster lessons which, with these materials, will provide more opportunities for Y11 students to engage with learning at this time

As and when other post-16 providers inform us of learning opportunities we will communicate them through our website.

Yours faithfully
