

**Examples + case studies (Paper 1)**

**Paper 1**

	<b>Name of example/case study</b>	<b>Where did you study?</b>	
<b>Section A Natural Hazards</b>	Use named examples to show how the effects and responses to a tectonic hazard vary between two areas of contrasting levels of wealth.	<b>HIC:</b>	<b>LIC:</b>
	Use a named example of a tropical storm to show its effects and responses		
	An example of a recent extreme weather event in the UK ( <i>causes, impacts and management</i> )		
<b>Section B The Living World</b>	An example of a small scale UK ecosystem		
	A Case study of a tropical rainforest ( <i>causes + impacts of deforestation</i> )		
	A case study of a hot desert to illustrate development opportunities and challenges of development		
<b>Section C The Physical Landscapes of the UK</b>	An example of a section of coastline in the UK to identify its major landforms of erosion and deposition		
	An example of a coastal management scheme in the UK to show reasons for management, management strategies and effects/conflicts.		
	An example of a river valley in the UK to identify its major landforms of erosion and deposition		
	An example of a flood management scheme in the UK to show why it is required, the strategies, and issues (social, economic and environmental)		

**Examples + case studies (Paper 1 + Paper 2)**
