## Talking Teaching and Learning

Welcome to our online T&L bulletin #3, which will be available weekly to share best practice and new Teaching and Learning functions on Teams.

Teaching and Learning Twilight

Have you tried these strategies from last week's remote learning TeachMeet?

1. Involve all students and encourage participation by targeting students using the chat function with their initials or @.

2. Check for understanding using whiteboard.fi to monitor student work as they write. This works well to increase engagement in a 'do now' task or provide live feedback.

3. Provide feedback to students through Teams by setting up a rubric. You can add a WWW/EBI bank to assignments, allowing you to quickly provide personalised feedback.

Who to follow?

@teacherhead

Tom Sherrington shares many remote learning solutions.

@EnserMark

TES columnist, education author and Head of Geog.

@daisychristo

Author of Teachers vs. Tech and other education books.

Minerva Live – Remote Learning CPD

Teams Intermediate
03/02 - 3.15pm
Learn how to create assignments, rubrics and forms.

Teams Advanced
11/02 - 3.15pm
Learn how to use the Class Notebook.

This week in T&L briefing the team will share ideas for the following strategies:

1. Prior to the lesson
2. Start of the lesson
3. Quick wins

Remember you can replay the briefings and Twilights through the Teaching & Learning tile on the MLE.

Rewards

Want to say well done to a student or a class for high quality work and effort? Nominate them for either COTW, a T&L Certificate or use the Praise function on Microsoft Teams.
