Remote Learning CPD

A range of online Remote Learning presentations from Seneca, researchEdHome and Paul Kirschner.

An idea seen on Twitter – Create an intro slide to add to the beginning of your lesson whilst students log on and you set up. A good opportunity to remind students of previous learning, praise students and a chance to share lesson etiquette again. A copy of this slide will be shared to edit.

Rewards

Want to say well done to a student or a class for high quality work and effort? Nominate them for either COTW, a T&L Certificate or use the Praise function on Microsoft Teams. More details can be found in T&L Briefing recording on the MLE.
