

# Remote Learning

## September 2021

### Individual student Covid absence

If your child has a Covid related absence, we will provide remote learning as detailed below. If your child is well enough to do so, they should complete the curriculum work set.

Students will be set work on Microsoft Teams via their class Team tab.

This will be set as an **assignment** or stored under the '**files**' tab.

Please see the support video clips on the website about how to access Microsoft Teams. <https://ecclesfield-school.com/curriculum/teams>

**Y7 students** have been shown in form time how to access Microsoft Teams from home.

Students should submit work by uploading on Microsoft Teams.

As staff are continuing to teach full timetables in school, please be aware that work may not be set immediately after we have been informed of a Covid related absence. Our colleagues will endeavour to upload work as soon as possible and we thank you for your continued support.
