

# Our Remote Learning Commitment

September 2020

## Whole Year Group Isolation

Remote learning will follow the curriculum plan for each subject. It is important that all students follow their normal timetable, participate and complete remote learning.

If it is necessary for an entire year group/bubble to isolate collectively, Ecclesfield will provide remote learning as detailed below. The timetable will continue as normal for students in school. Teachers will use their timetabled capacity of the isolating year group to provide remote learning.

**Students should follow their normal timetable whilst working from home**

**Students will receive some direct teacher instruction in each subject per learning cycle (2 weeks). Microsoft Teams and Microsoft Stream will be used to facilitate this. Where lessons are live, students will be sent the invite beforehand.**

**Students will also be set some independent work, learning activities and/or pre-recorded videos in each subject across the learning cycle (2 weeks).**

**All students will receive some feedback on work, misconceptions and success for their work in each subject within the cycle.**

**Students must keep up and complete all work set as learning will continue and will not necessarily be revisited once they return to school**

**Students will submit work either through email or via Microsoft Teams**

If a student has difficulty accessing a computer, tablet or phone at home and/or has not internet access to receive/stream learning, please contact the school so that alternative arrangements can be made as soon as possible.
