

Ecclesfield School
Careers and Employability Mission Statement
2021-2022

Ecclesfield School is committed to providing all students with high quality Careers Education, Information, Advice and Guidance (CEIAG) appropriate to age and ability.

We are fully committed to promoting equality and diversity for all; we will challenge low expectations and aspirations based on stereotypes.

We work in partnership with employers to provide mentorship, experience of the world of work, and to increase students understanding of the relevance of their studies. In due course this will play a key role in facilitating social mobility.

Through a planned programme of Careers Education, students are provided with the opportunity to acquire and develop the necessary skills to research, analyse, and understand careers related information. Students are made aware of the value of learning, education, and qualifications, and they are informed about the opportunities available to them in work, further education, and training.

Accessible careers related resources are provided to encourage independent research, and a fully qualified Careers Adviser is available to assist students in making informed decisions about their future.

All subjects endeavor to enable students to develop an awareness of their strengths and weaknesses, and to foster an attitude of self-reliance, initiative, reliability, and confidence. The Careers and Employability programme ensures that students are equipped with the skills to able them manage their own career and to cope with the changes that occur at various stages of their lives.

Lesley Cassell
Careers Adviser
