Geography Y7DC2 milestones and corresponding evidence (DC deadline 12th February) (Ark Spring assessment released 25th February)

Milestones	Evidence
• Types of geography – Physical and human • World – continents, oceans • UK/ British Isles – countries, capital cities • UK population – its characteristics and distribution • The Earth's structure and continental drift • The Earth's atmosphere • The water cycle and stores of water	• 30 multiple choice question quiz (HT2) • Autumn assessment short answer questions (HT2) • Extended writing task (HT3)

Geography Y7DC3 milestones and corresponding evidence (DC deadline 11th June)

Milestones	Evidence
• The geography of the British Isles and the UK • Earth's atmosphere and water cycle • The European Union and trade • How the UK made its wealth in the past & today • Describing biomes and ecosystems • Reading latitude on a world map • Reading four-figure grid references • Reading pie charts and bar charts	• 30 multiple choice question quiz (HT4) • Spring assessment short answer questions (HT4) • Extended writing task (HT5) • 14th – 28th June: Ark end of year assessment

Geography Y8DC1 milestones and corresponding evidence (DC deadline 18th Dec)

Milestones	Evidence
• River Nile – location, countries, features quality of life • Grand Ethiopian Renaissance Dam • Food insecurity (physical causes) • Reading line graphs reading topographic and choropleth maps using compass directions • Major latitude lines (e.g., equator, the Tropics)	• 30 multiple choice question quiz • Autumn assessment short answer questions • Extended writing task

Geography Y8DC2 milestones and corresponding evidence (DC deadline 25th June)

Milestones	Evidence
• The UK's changing energy mix • Advantages and disadvantages of non-renewable and renewable energy sources • Past climate change • Natural greenhouse effect and enhanced greenhouse effect • Line graphs, pie charts, choropleth maps, world maps, lines of latitude.	• 30 multiple choice question quiz (HT4) • Spring assessment short answer questions (HT4) • Extended writing task (HT5) • 14th – 28th June: Ark end of year assessment – potentially could use if marked in time.

Geography Y9DC1 milestones and corresponding evidence (Deadline 21st May)

Milestones	Evidence
• Name and explain why some countries are 'trapped' by their physical geography • Reading line graphs • Calculating the mean average • Identifying latitude, oceans and continents on maps • Ocean layer characteristics • The ocean as a carbon sink	• Autumn assessment • Extended writing task (prisoners of geog) • End of unit multiple choice quiz (books)

Geography Y9DC2 milestones and corresponding evidence (DC deadline 21st May)

Milestones	Evidence
• Stages of Growth model • factors driving globalisation (e.g. technology) • advantages and disadvantages of globalisation • measuring development • **Skills** • identifying latitude, oceans and continents on maps • reading line graphs • reading choropleth maps • calculating the range (difference) • measuring straight-line distance	• 30 multiple choice question quiz (HT5) • Summer assessment short answer questions (HT5) (use Ark Spring 2026) • Extended writing task (HT5)
