

## **B2 Biology revision**

Revision is not the most fun thing in the world **but** it's a lot better than getting a rubbish grade because you didn't revise.

Use the revision posters/mind maps at the front of this booklet to help you work through the tasks and questions.

You can also use your exercise book as a source of information to help you.

### **How else can I revise?**

#### **Log on to BBC bitesize**

[http://www.bbc.co.uk/schools/gcsebitesize/science/add\\_aqa](http://www.bbc.co.uk/schools/gcsebitesize/science/add_aqa)

You are doing additional Science (AQA)

You should work through the following areas.

Biology: Cells plants, food chains and cycles, enzymes and digestion, homeostasis, cell division and inheritance.

Do the revision tasks, activities and then try the questions.

#### **Use SAM learning**

I have placed **lots** of work on there for you to do over the next few weeks. Try and complete as much as possible over the holidays.

#### **Other techniques**

- Look, cover, write, check
- Mind maps
- Revision posters
- Get someone to test you
- Post-it notes/cards of key points
