

Careers in the Curriculum

(September 2018)

Careers Education, Information, Advice, and Guidance

Employability and Enterprise.

Overall Aims

Ecclesfield School aims to provide a learning environment that promotes excellence, respect, and responsibility. Through a dedicated careers, employability, and enterprise programme students will:

- develop the skills and confidence needed to make informed choices about their future;
- develop an understanding of the range of study options and the world of work;
- develop the skills needed to manage transitions from one stage of their education and training to the next, and into work.
- create a record of their personal aspirations, careers experiences and interventions, and ultimately their own employability skills profile.
- be equipped with relevant skills, knowledge, and information to enable a seamless transition into their chosen pathway of employment, education or training.

Strong employer links, combined with a high standard of impartial careers advice and guidance provided by appropriately trained school staff and careers professionals can translate inspiration from the workplace into motivation to achieve in the classroom.
